

RIVTEC®

FAR KJ45/S

Air Rivet Nut Tool for Rivet Nuts up to M12

FAR KJ45/S is a heavy duty air tool for production installation of rivet nuts up to M12. The actuation principle is Spin-Pull, with the pull-stroke length being set mechanically. Mandrel change and stroke adjustment is uncomplicated. With the increased traction power, this tool is optimal for installing larger thread diameters and is essential (spin-pull actuation) in the instance of stainless steel and aluminium rivet nuts. Made in Italy with 12 months warranty.

Setting Capacity

- Automatic rivet nut wind on
- Fast and simple change of mandrel and nosepiece
- Fast setting cycle with forward/reverse trigger for optimum user control
- Swivel airline fitting: 1/4" BSP thread
- Supplied in a lightweight plastic carry case
- Spring balance attachment
- Unique hydraulic oil refill system
- Quick and easy stroke adjustment

Dimensions: Total length 296 mm, nosepiece length 124 mm, nosepiece diameter Ø 28.5 mm, main body diameter Ø 50 mm, total height 312 mm, base diameter Ø 130 mm.

Specifications

Product Code:	FT-KJ45S
Weight:	2.9 kg
Length:	296 mm
Operating Air Pressure:	6 bar
Pulling Force:	27,459 N
Stroke:	8 mm

Package Accessories

Mandrels and nosepieces for M4, M5, M6, M8, M10 & M12 rivet nuts
5mm Allen wrench
Hydraulic Oil Bottle
Airline Fitting
Operating Manual
