

RIVTEC®

Gesipa® FireBird®

Battery Rivet Nut Tool for Rivet Nuts up to M10

Gesipa® FireBird® is a high quality cordless rivet nut tool designed for on-site installation and industrial production work. The Spin-Pull-Spin setting sequence of this tool reduces possible thread deformation of the installed fastener and improves installation speed. It is available as a one or two battery kit and is supplied with M4, M5 and M6 nose assemblies. Additional nose assemblies including M3, M8 and M10 are sold separately.

Setting Capacity

- Fast and simple mandrel change
- Easy stroke adjustment
- Lightweight and durable Li-Ion battery
- One or two battery kit, supplied in a metal carry case with charger
- Attachment for hands-free carriage
- Mandrel storage case - avoid losing, well organised
- Sturdy, compact and shockproof body for versatile operation

MADE IN GERMANY
